

PRESS RELEASE

February 18, 2009

HUNTINGTON BEACH, CA – Inductor Supply, Inc. (ISI), a premier U.S.-based supplier of magnetic components and parts, today became one of the few suppliers to reach the three-decade business milestone.

“As we celebrate our 30th anniversary in the electronics industry,” said ISI owner Diana Klimek, “we have a great many people to thank. In particular, we want to extend our sincere appreciation to the loyal customers who have been with us over these many years. Their trust and loyalty are the foundation of our company.”

ISI was founded in 1979 as an inductor distributor. In 1989, the company made the transition to manufacturing, and began producing and selling its own quality brand of products. Since that time, ISI has continued to flourish, becoming a recognized standard in the industry.

The company this year also recognized a number of employees for both 20 and 30 years of continuous employment and service. “The expertise and commitment of these key professional and support personnel have made Inductor Supply excel in customer service, as well as continuing to be a reliable source for innovative new products and solutions,” Ms. Klimek said.
